

CHEGURI VINEETH

Aspiring SOC L1 Analyst |
Cybersecurity Enthusiast

About Me

Aspiring cybersecurity professional with a strong interest in security monitoring, log analysis, and incident investigation. I have a solid foundation in networking and cybersecurity fundamentals and enjoy analyzing suspicious activities to help protect organizations from cyber threats. I am seeking an entry-level SOC Analyst role where I can apply my analytical skills and continue growing in the cybersecurity domain.

Technical Tools

- Ubuntu Linux
- Suricata IDS
- pfSense Firewall
- Splunk SIEM
- Splunk Forwarder

Technical Skills

- Log Analysis
- Security Monitoring
- Networking Fundamentals
(TCP/IP, DNS, DHCP)

Core Competencies

- Strong troubleshooting and analytical skills
- Attention to detail in monitoring and log review
- Willingness to learn and follow SOC processes
- Good documentation and communication mindset
- Calm and methodical approach to security alerts

TECHNICAL SECURITY PROJECTS

Virtual SOC & Network Defense Lab | Self-Initiated Hands-on Security Lab.

Infrastructure:

Engineered a virtualized network using Oracle VM VirtualBox to simulate an enterprise environment with segmented networks.

Traffic Monitoring:

Deployed and configured Suricata IDS on Ubuntu to monitor network traffic, generating alerts for suspicious patterns and potential threats.

SIEM Integration:

Utilized Splunk for centralized log management; performed basic analysis of system logs and network alerts to identify security anomalies.

Packet Analysis (Wireshark):

Conducted routine network captures to analyze TCP Handshakes, DNS requests, and TLS traffic; to identifying irregular traffic spikes or unauthorized communication attempts.

Firewall Management:

Configured pfSense to manage gateway security, implementing strict access control lists (ACLs) to harden the internal network

Certifications & Training

- ISC2 Certified in Cybersecurity (CC) Training | Feb 2026
- Endpoint Security – Cisco Networking Academy | Mar 2026
- Introduction to Cybersecurity – Cisco Networking Academy | Mar 2026
- Introduction to Digital Forensics – Security Blue Team | Feb 2026
- Introduction to OSINT – Security Blue Team | Feb 2026
- SOC Masterclass – ThinkCloudly | Dec 2025

Education

- **Bachelor of Arts (B.A)**
Dr. B.R. Ambedkar Open University | 2025 | 62.5%
